

As the Covid-19/Corona Virus has begun to affect our community, we want to reassure our clients that your health and safety and that of our employees are of the utmost importance to us.

Because your safety is so important to us, we wanted to reach out to you to provide an update on what we are doing to keep you and our employees safe.

We are closely monitoring the situation and are following the best practice recommendations of the Center for Disease Control (CDC), including:

- the frequent washing of hands and use of hand sanitizer
- staying home when sick or any sign of flu-like symptoms arise
- and the use of other precautions to minimize the potential spread of this virus, **our technicians will wear rubber gloves when entering your home**

If your family or organization has any specific safety requests as we visit you, please let us know ahead of time and we will make every effort to accommodate your needs.

As a family-owned business, we love the Utah Communities we serve. We want to be there for you. We will continue to monitor the situation and act according to CDC recommendations as they develop.

Please stay safe and thank you for your continued support.
